## About LMIPL

Managed by the passionate entrepreneurial duo Mr. Ashok Kumar and Mr. Amit Kumar

LMI Group is an Indian company catering to clients across the globe.

We are expertise in providing Human Resource Solutions in various industries. From health care to catering we recruit employees by searching and screening the accurate candidate as per our client's requirements.

However, our work does not bound here, along with searching for the perfect candidate, we ensure that we provide the finest training to the candidates and deploy them to work locations.

Hence, if you are looking for recruitment solutions then LMI Group is the ideal organization for you!

With an abundant experience of over 2 years, We believe that each client is incomparable and thus, our flexibility allows us to create an arrangement that incorporates the various aspects of our different services.

This in turn allows us to "customize" the service to better respond to the Client's particular requirements and to ensure the authenticity of our work, our organization has been approved by the Ministry of Labour, Government of India and is also certified by ISO 9001:2008

“

## LM IPL Advantage:

**Project Life Cycle Support:** LM IPL functions not just as supplier but as project partner guiding the consumer through the various stages during the project cycle. Apart from Engineering, Procurement & Commissioning (EPC), we also support on right sizing the project, financing, O&M support post the contract period.

**Optimization of EPC cost:** Individually each project size is small but as we have a large number of projects, it allows us to strategic partnerships and leverage in procurement which translates to lowering of EPC costs, resulting in better quality & optimized costs.

**Economy of scale in operation and maintenance costs:** Power production, even through solar requires certain specific operations and maintenance processes, which incur costs. At times, these costs are unaffordable for smaller projects but because of our portfolio, our per over-head costs are optimized. This translates to better services, lower maintenance costs.

**Advantages of specialization:** Our dedication to power production through solar has brought in specialization of these processes, as a result, your plant is always maintained at optimum performance and prime condition.

**Smart Add-ons:** We offer smart add-ons on the project based on client requirement, including:

- ✓ 24\*7 Real Time Remote Monitoring (On Desktop & Mobile)
- ✓ Flexible O & M Support contracts.
- ✓ Performance Guarantee in terms of unit production
